SAFETY DATA SHEET

Effective Date: 6/1/2016
Replaces: New

Flux 1

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: Flux 1
CAS #: Mixture

Synonyms/Common Names:

Manufacturer/Contact Info:
Teichert Aggregates
PO Box 15002
Sacramento, CA 95851

General Phone Number:
(916) 484-3011 (8-5, PST, M-F)

Emergency Phone Number:
(800) 287-7383

SECTION 2. COMPOSITION / INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>
<th>Hazardous Components</th>
<th>CAS No.</th>
<th>% by Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Borax decahydrate</td>
<td>1303-96-4</td>
<td>30-60</td>
</tr>
<tr>
<td>Potassium nitrate</td>
<td>7757-79-1</td>
<td>10-30</td>
</tr>
<tr>
<td>Sodium Carbonate Anhydrous</td>
<td>497-19-8</td>
<td>10-30</td>
</tr>
<tr>
<td>Silica Sand (1)</td>
<td>14808-60-7</td>
<td>5-10</td>
</tr>
</tbody>
</table>

Comments: (1) Natural sand includes quartz, a form of crystalline silica. Composition varies naturally.

SECTION 3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW
WARNING! Silica quartz can cause cancer. Causes skin, eye and respiratory tract irritation. Possible reproductive hazard that may cause adverse reproductive effects based on animal data.

OSHA REGULATORY STATUS
This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication) and 8 CCR § 5194 (Cal/OSHA).

POTENTIAL HEALTH EFFECTS

Routes of Exposure:
Inhalation. Ingestion. Skin contact. Eye contact.

Eye Contact:
Do not get this material in contact with eyes. Dust in the eyes will cause irritation.

Skin:
Do not get this material in contact with skin. Causes skin irritation.

Inhalation:
Dust irritating to respiratory tract. Inhalation of high concentrations of quartz dust can lead to the lung disease known as silicosis, with cough and shortness of breath.

Ingestion:
Under normal conditions of intended use, this material does not pose a risk to health. However, ingestion of dusts generated during working operations may cause nausea and vomiting.

TARGET ORGANS

CHRONIC EFFECTS
Silica quartz can cause cancer. Possible reproductive hazard that may cause adverse reproductive effects based on animal data. Prolonged and routine inhalation of fine quartz dust can lead to the lung disease known as silicosis. Chronic exposure may also result in other lung problems such as chronic obstructive pulmonary disease. May cause blood damage.
SIGNS AND SYMPTOMS

Irritation.

POTENTIAL ENVIRONMENT EFFECTS

The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

SECTION 4. FIRST AID MEASURES

Eyes:
Do not rub eyes. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention if irritation persists after washing.

Skin:
Remove contaminated clothes and rinse skin thoroughly with water for at least 15 minutes. Get medical attention promptly if symptoms persist or occur after washing.

Inhalation:
Move into fresh air and keep at rest. Get medical attention if any discomfort continues.

Ingestion:
Rinse mouth thoroughly if dust is ingested. Get medical attention if any discomfort continues. However, ingestion of small amounts of the material is not expected to pose a significant health hazard.

Notes to Physician:
Keep victim under observation. Symptoms may be delayed. Prolonged and routine inhalation of quartz dust can lead to delayed lung disease known as silicosis. Early symptoms of silicosis include coughing, wheezing, shortness of breath. Chronic exposure may also result in other lung problems such as chronic obstructive pulmonary disease.

General Advice:
If exposed or concerned: get medical attention/advice. If breathing is difficult, give oxygen. Keep victim under observation. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. As with any chemical, skin contact with this product, and the breathing of product dust, fumes or vapors, should be minimized. We strongly recommend that the precautions stated in this MSDS be followed when handling the product.

SECTION 5. FIRE FIGHTING MEASURES

Flammable Properties:
Not available

Flashpoint (method used):
Product: Not available

Flammable Limits in Air (% volume in air):
NE LEL: NE UEL: NE

Extinguishing Media:
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). Avoid using a direct stream of water. Water spray should be used to cool containers.

Protection of Firefighters:
Cool containers with flooding quantities of water until well after fire is out. Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Specific Methods:
Containers close to fire should be removed or cooled with water.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions:
Avoid inhalation of dust and contact with skin and eyes. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. See Section 8 of the MSDS for Personal Protective Equipment.

Methods for Containment:
Prevent entry into waterways, sewers or confined areas.

Methods for Clean Up:
Environmental Precautions:
Collect dust or particulates using a vacuum cleaner with a HEPA filter. Collect in containers and seal securely. Containers with collected spillage must be properly labeled with correct contents and hazard symbol. For waste disposal, see Section 13 of the MSDS. Clean up in accordance with all applicable regulations.
SECTION 7. HANDLING AND STORAGE

Handling:
Pregnant women should not work with the product, if there is the least risk of exposure. Avoid inhalation of dust and contact with skin and eyes. Use personal protective equipment. Wash thoroughly after handling.

Storage:
Store in a well-ventilated place. Keep container tightly closed. Keep this material away from food, drink and animal feed. Keep out of reach of children.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

<table>
<thead>
<tr>
<th>Component</th>
<th>OSHA/MSHA Permissible Exposure Limit (PEL)</th>

</tr>
</tbody>
</table>

Engineering Controls:
Mechanical ventilation or local exhaust ventilation is recommended. Provide adequate ventilation. Observe Occupational Exposure Limits and minimize the risk of inhalation of dust.

PERSONAL PROTECTIVE EQUIPMENT:

Eye / Face Protection:
Wear dust goggles.

Skin Protection:
Wear appropriate chemical resistant clothing to prevent any possibility of skin contact.

Respiratory Protection:
Use personal protective equipment as required. In case of inadequate ventilation or risk of inhalation of dust, use suitable respiratory protection. If airborne concentrations exceed applicable exposure limits (PEL), wear NIOSH-approved respiratory protective equipment to maintain exposures below the PEL.

General Hygiene Considerations:
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Cleaning of personal protective equipment should be done with appropriate special equipment. Avoid smoking, eating, or drinking and storage of tobacco, food and drinks in work areas and areas where there is a risk of contamination from the substances and product.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance & Odor:
Powder, Odorless

pH:
Not available

Melting Point:
Not available

Boiling Point:
Not available

Evaporation Rate:
Not available

Vapor Pressure:
Not available

Vapor Density:
Not available

Specific Gravity:
Not available

Solubility (water):
Not available
### SECTION 10. CHEMICAL STABILITY & REACTIVITY INFORMATION

**Chemical Stability:**
Stable at normal conditions.

**Conditions to Avoid:**
Avoid incompatible materials and intense heat.

**Incompatible Materials:**
Strong oxidizing agents. Strong acids.

**Hazardous Decomposition Products:**
Nitrogen oxides (NOx). Sodium oxides. Boric acid.

**Hazardous Polymerization:**
Hazardous polymerization does not occur.

### SECTION 11. TOXICOLOGY INFORMATION

**Sensitization:**
Not available.

**Local Effects:**
Dust in the eyes will cause irritation. Irritating to skin. Irritating to respiratory system.

**Chronic Effects:**
May adversely affect the developing fetus. May cause blood damage. Crystalline silica, as respirable dust particles, has caused pulmonary fibrosis in laboratory animals and humans.

**Carcinogenicity:**
Cancer hazard. Hazardous by OSHA criteria.

### SECTION 12. ECOLOGICAL INFORMATION

**Environmental Effects:**
Not available.

**Other:**
Not available.

### SECTION 13. DISPOSAL CONSIDERATIONS

**Disposal Instructions:**
Do not allow this material to drain into sewers/water supplies. This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40CFR 261.4 (b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.

**Waste from Residues / Unused Products:**
Dispose of waste and residues in accordance with local authority requirements.

### SECTION 14. TRANSPORT INFORMATION [NOTE: NOT INTENDED TO BE ALL-INCLUSIVE]

Section 311 Hazardous Chemical
Yes

California Proposition 65:
WARNING: THIS PRODUCT CONTAINS CHEMICALS KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER AND BIRTH DEFECTS OR OTHER REPRODUCTIVE HARM.

State Regulatory Lists:
The following materials/components are specifically listed by individual states. For details on regulatory requirements, you should contact the appropriate agency in your state:

**US - California Proposition 65 - Carcinogens & Reproductive Toxicity (CRT): Listed substance**
- Quartz [Silica crystalline] (14808-60-7) Listed

**US - California Proposition 65 - CRT: Listed date/Carcinogenic substance**
- Quartz [Silica crystalline] (14808-60-7) Listed: October 1, 1988 Carcinogenic
